Special Issue
Assembling Australia: Proterozoic building of a continent

Guest Editors:
Peter A. Cawood and Russell J. Korsch

Assembling Australia: Proterozoic building of a continent
P.A. Cawood and R.J. Korsch 1

Evolution of Neoarchaean and Proterozoic basins of Australia
S.T. de Vries, L.L. Pryer and N. Fry 39

A review of Australia's Proterozoic mineral systems and genetic models
F. Pirajno and L. Bagas 54

Comparing 1800–1600 Ma accretionary and basin processes in Australia and Laurentia: Possible geographic connections in Columbia
P.G. Betts, D. Giles and B.F. Schaefer 81

Provenance history of the Bangemall Supergroup and implications for the Mesoproterozoic paleogeography of the West Australian Craton
D.McB. Martin, K.N. Sircombe, A.M. Thorne, P.A. Cawood and A.A. Nemchin 93

Anomalous lithosphere beneath the Proterozoic of western and central Australia: A record of continental collision and intraplate deformation?
S. Fishwick and A.M. Reading 111

A revised Palaeoproterozoic chronostratigraphy for the Pine Creek Orogen, northern Australia: Evidence from SHRIMP U–Pb zircon geochronology
K. Worden, C. Carson, I. Scrimgeour, J. Lally and N. Doyle 122

The Palaeoproterozoic evolution of the Litchfield Province, western Pine Creek Orogen, northern Australia: Insight from SHRIMP U–Pb zircon and *in situ* monazite geochronology
C.J. Carson, K.E. Worden, I.R. Scrimgeour and R.A. Stern 145

An example of a Palaeoproterozoic back-arc basin: Petrology and geochemistry of the ca. 1864 Ma Stubbins Formation as an aid towards an improved understanding of the Granites–Tanami Orogen, Western Australia
L. Bagas, F.P. Bierlein, L. English, J.A.C. Anderson, D. Maidment and D.L. Huston 168

Sedimentary geochemistry, geochronology and sequence stratigraphy as tools to typecast stratigraphic units and constrain basin evolution in the gold mineralised Palaeoproterozoic Tanami Region, Northern Australia
A. Lambeck, D. Huston, D. Maidment and P. Southgate 185

Stratigraphic timing constraints in the Davenport Province, central Australia: A basis for Palaeoproterozoic correlations
J. Claoué-Long, D. Maidment and N. Donnellan 204

The age and significance of the Ngadarunga Granite in Proterozoic central Australia
J. Claoué-Long and C. Edgoose 219

A correlation of Aileron Province stratigraphy in central Australia
J. Claoué-Long, C. Edgoose and K. Worden 230

The duration of the Strangways Event in central Australia: Evidence for prolonged deep crust processes
J. Claoué-Long, D. Maidment, K. Hussey and D. Huston 246

Blind orogen: Integrated appraisal of multiple episodes of Mesoproterozoic deformation and reworking in the Fowler Domain, western Gawler Craton, Australia
J.L. Thomas, N.G. Direen and M. Hand 263

Petrogenesis of the St Peter Suite, southern Australia: Arc magmatism and Proterozoic crustal growth of the South Australian Craton
G. Swain, K. Barovich, M. Hand, G. Ferris and M. Schwarz 283

Understanding the 1720–1640 Ma Palaeoproterozoic Willyama Supergroup, Curnamona Province, Southeastern Australia: Implications for tectonics, basin evolution and ore genesis
C.H.H. Conor and W.V. Preiss 297

Tectonic setting and provenance of the Paleoproterozoic Willyama Supergroup, Curnamona Province, Australia: Geochemical and Nd isotopic constraints on contrasting source terrain components
K. Barovich and M. Hand 318

Reinterpretation of the tectonic context of high-temperature metamorphism in the Broken Hill Block, NSW, and implications on the Palaeo- to Meso-Proterozoic evolution
C.J. Forbes, P.G. Betts, D. Giles and R. Weinberg 338

Syn- and post-extensional tectonic activity in the Palaeoproterozoic sequences of Broken Hill and Mount Isa and its bearing on reconstructions of Rodinia
G.M. Gibson, M.J. Rubenach, N.L. Neumann, P.N. Southgate and L.J. Hutton 350

The Musgrave Province: Stitching north, west and south Australia
B.P. Wade, D.E. Kelsey, M. Hand and K.M. Barovich 370

Proterozoic metamorphism in Tasmania: Implications for tectonic reconstructions
R.F. Berry, D.A. Steele and S. Meffre 387
